

Ennis-Hill class is a secondary class within the Practical learning approach covering key stages 3 and 4. There are 13 pupils in class who are aged between 13-16 years and are supported by a Class Teacher (3 days per week due to being Learning Approach Lead), a Higher-Level Teaching Assistant (leading two days per week) and a number of Teaching Assistants.

Our curriculum for this year will cover many different topics such as; 'Getting to know you', 'Celebrating differences', 'Helping hands', 'Our world alive', 'Time travellers' and 'We're all going on a summer holiday'. Within these topics we will explore our self-help, independence and life skills, as well as working towards our own individual EHCP outcomes.

All pupils in Ennis-Hill class will be working towards ASDAN Life Skills Challenge awards which focus on gaining a wide range of skills for independence and allow the learners to be able to earn qualifications. Every week, we will be cooking our own meals, including a main course, starter or side dish and a dessert. We will also be making regular visits to cafes and shops to learn the important skills we need whilst we are out in the community.
