

Welcome to Flipper class. We are a class within the Early Years learning approach, which has 12 pupils. The adults in our class consist of a Teacher, a Senior Teaching Assistant and a Teaching Assistant.

In Flipper class, we learn through the Curiosity Approach, TEACCH rotation learning, real-world and structured play experiences. We really value the outside and nature, so will be having 50% of our time dedicated to outside learning opportunities. We give time to exploring the natural world.

We have an outside area and this plays an important part in our learning, allowing us to develop our gross motor skills and playing cooperatively with our friends. It also allows us to explore messy and sensory play experiences.
