

Hedwig class consists of 10 pupils and 4 members of staff who support pupils with their engagement and learning. Pupils range in age from 4–6 years.

Hedwig class pupils love sensory play, in particular water, shaving foam and sand. They also love exploring the outside. They enjoy visits to the MUGA, saplings and the field.

This year pupils will be working on building trusting relationships with those around them and building on their communication skills. This will be practiced through a variety of fun and interactive activities.

Within the EYFS learning approach, we follow the Curiosity Approach. This enables pupils to have access to open-ended activities, which include natural and authentic resources. These activities will prosper to develop the pupils' confidence, critical thinking and problem-solving skills.
