

Holmes class is within the Practical learning approach. We have 12 pupils in our class. To support the learning in class we have a Teacher, a Senior Teaching Assistant and a Teaching Assistant.

During this school year, pupils will access a wide range of community experiences such as; shopping, café visits and leisure visits. Some of the pupils are in year 9 and above and therefore they work towards ASDAN life skills accreditation in these areas. Pupils will also be learning through a wide variety of engaging sensory and practical opportunities that support them to develop their communication and interaction.

Holmes are a busy class and love to be 'hands on' in their learning and use all of their senses when exploring activities. Pupils will start the year by exploring the theme 'All about me', followed by a variety of different topics relating to the world around them.
