

Lassie class is within the EYFS learning approach. We have 11 pupils in class and 5 adults who support them each day.

This year, Lassie class will have opportunities to explore the natural world, show curiosity about a range of loose part materials and authentic resources, as well as getting involved in outdoor learning, exploring the different weather and seasons and the range of learning opportunities that the different weather brings.

We will be focussing on building strong and trusting relationships with those around us and building on communication skills, using fun and exciting activities set up throughout the day. Our classroom is set up to meet the pupils' individual needs and focuses heavily on a calming atmosphere with lots of opportunities to meet their sensory needs, alongside their learning activities.
