

Van Gogh is a secondary class within the Sensory learning approach. There are 9 pupils in class. Pupils work towards targets in 5 key areas of the curriculum;

My body - movement and physio including hydrotherapy for some pupils.

My communication - PECS, communication books, Makaton. We use a total communication approach to support all pupils.

My thinking – numeracy and literacy. We use a variety of resources to explore numbers and stories.

My independence – pupils are encouraged to work towards their independence from personal care to placing their belongings in their lockers.

Me and my community – as a class we enjoy exploring the outdoor learning environments around the school, as well as attending the signing choir. There will also be opportunities for going shopping in the local community.

Pupils enjoy weekly cooking sessions where they learn life skills and work towards ASDAN units. They use all of their senses to explore their world. This includes messy explorations, sound, lights, tastes and smells.
